FOR IMMEDIATE RELEASE

Dallas, TX – September 26, 2016

Sartorius Intec is Now Minebea Intec

Nicol Scales & Measurement is excited to inform our customers that starting immediately the Industrial Scale, Tank and Hopper and Inspection equipment product lines that were previously sold under the Sartorius and Sartorius Intec brand names are now sold under the “**Minebea Intec**” brand. Minebea purchased all of Sartorius’ industrial scale assets in 2015, including their manufacturing facilities in Germany. Therefore, all of the current high resolution industrial scale and weighing products with “Made-In-Germany-Quality” that you are used to from Sartorius will still be made in their German factories and will now be sold under the Minebea Intec brand. Nicol Scales & Measurement will continue to promote and support these products as a “Preferred Partner” under the Minebea Intec Partnership Program and as one of two Factory Authorized Warranty and Repair Centers for Minebea Intec in the United States. Please note that the balance and lab products are separate and are still owned by and branded as Sartorius.

About Minebea Intec:

Minebea Intec (formerly known as Sartorius Intec) is a \$7 Billion per year international company that provides products, solutions and services to the industry for increasing the reliability, safety and efficiency of production and packaging lines. This we give evidence through our promise to our customers and consumers: ‘We make daily life safer.’ We have almost 70 years’ experience in supporting the industry to ensure that manufactured goods have the right quality and do not contain any foreign bodies. Our ability to do this is based on the ‘German Quality’ of our products and services combined with our continuous investment in developing leading technology. As a result, tens of thousands of customers put their trust in our company, having allowed us to supply them with millions of products and solutions during our long history.

About Nicol Scales & Measurement:

We are an ISO/IEC 17025:2005 accredited Calibration Company that has provided calibration, repair, and sales of all types of weighing and measurement products since 1931. Based in Dallas with multiple locations in Texas, we serve customers throughout the US and Puerto Rico. We serve numerous customers in a variety of industries by offering great service and expert consultation before and after the sale on scales and weighing products from milligrams to tons and on force and materials testing equipment from less than a mN to over 500 kN. We pride ourselves on offering custom solutions that exceed expectations and result in a return on the customer’s investment.
